

Waterjet Cutter

About	The waterjet cutter uses a high pressure stream of water and abrasive to cut almost any material. It has a 24 x 48 in working area and 2 in thickness limit. It is most useful for cutting metal and plastics not suitable for the laser cutters.
Category	2D Fabrication
Location	Back Room
Brand /Model	WARDJET A-0612
Status	AVAILABLE
Materials	- Metals (excluding heavy metals and zinc) - Plastics - Ceramics (use at your own risk) - Composites (use at your own risk) - Rubber
