Sewing Machines

About	Sewing machines sew fabric and materials together with a mechanically driven needle and thread. The Garage has a domestic and industrial sewing machine. The domestic sewing machine (Elna) offers a wide selection of stitches for sewing various fabrics of thickness up to one layer of denim. The industrial sewing machine (Juki) is capable of sewing a straight stitch on thicker fabrics, from two layers of denim up to 3/16" of leather.
Category	Textiles
Location	Front Room
